Terms and Conditions

FFA is \$1,250 from ProProducts® Dallas, TX DC.

Payment terms are net 30 days.

ProProducts® minimum order requirements of \$100 still applies.

Returns are accepted if in sellable condition:

- Full credit if returned within 72 hours of invoice.
- After 72 hrs, a 10% restocking fee applies.
- After 30 days, a 25% restocking fee applies.
- After 60 days, a 40% restocking fee applies.
- No returns older than 90 days.

Since 1998, ProProducts® has been bringing high quality and innovation to wholesale distribution. Evolving from a simple packaging operation to a sophisticated center focused on ease of use and quick response to our customers' needs.

ProProducts® prides itself in providing professional-grade ProScrew®, ProNail® and other fasteners. Our ProScrew® are available in both self drill and speed point, sizes from 1/2" to 2", including white head styles. ProNail® are available up to 2".

ProProducts® is unique because of our specialty lid on most containers. Traditional screw vendors have lids that are stapled or taped on, making opening the package a difficult and destructive process. It is often tricky to move these opened packages around the job site without spilling screws and re-use of the packaging is practically pointless. Many screw vendors also have opaque packaging that prevents you from easily spotting which screws you've got. These problems are all solved with the crystal clear containers and unique FlipTop lid of ProProducts®.

FlipTop Lid

Our iconic blue FlipTop lid - **now with 24% larger opening** - allows better pours than ever before! Pop the FlipTop with a flick of the thumb, grab or pour what is needed and reseal for safe and secure storage. If larger amounts than a handful are needed, simply unscrew the lid.

No prying or cutting is necessary. Our package is drop resistant, even after the lid has been opened and closed. And, since most packages are clear, you know what you're reaching for at a glance.

Customizable Packaging

Since ProProducts® sophisticated packaging system is customizable, you are not limited to the quantities and packaging you see here. We can use heat-sealed plastic bags for quantities that are as small as you need them. ProProducts® can even make "Contractor Packs" by combining several different SKUs in one bag to facilitate job-site efficiency.

Standard Order Quantities are:

• 50	• 500
• 100	• 1000
• 250	• Bulk

Packaging Options

Bulk Buckets
(original box or plastic bucket)

Large Clear Square Handle Containers

- ProGrille® registers provide low resistance, excellent air throw and sound levels.
- ProGrille® registers are unaffected by water, bacteria or fungi and are well suited for areas that experience high humidity levels.
- All registers maintain their color quality in addition to the characteristics of high heat stability, impact strength, luster (gloss) and rigidity.
- Overall chemical and aging resistance is good.
- ABS is resistant to weak acids as well as weak and strong bases; somewhat resistant to strong acids; and is soluble in polar solvents such as esters, ketones and some chlorinated hydrocarbons.
- ProGrille® registers will outperform steel or aluminum under the harshest of conditions.
